3760 Rocky Mountain Ave  
Loveland, CO 80538

**Deposited on Behalf of:** Heska Corporation

**Date of Receipt of Culture by the ATCC®:** September 17, 2008

**Identification Reference by Depositor:**

Hybridoma cells: Heska Hybridoma

**ATCC® Patent Deposit Designation:**

I-542, H425 Seed Stock , PTA-9498  
2x10<sup>6</sup> cells / vial 8/19/08,  
BR-PDM Core

The ATCC® understands that:

1. The deposit of this culture does not grant ATCC® a license, either express or implied, to infringe the patent, and our release of this deposit to others does not grant them a license, either express or implied, to infringe the patent.
2. If the deposit should die or be destroyed during the effective term of the patent, it shall be your responsibility to replace it with viable material. It is also your responsibility to supply a sufficient quantity for distribution for the deposit term. ATCC® will distribute and maintain the material for 30 years or 5 years following the most recent request for the deposit, whichever is longer. The United States and many other countries are signatory to the Budapest Treaty.

Prior to the issuance of a U.S. Patent, the ATCC® agrees in consideration for a one-time service charge, not to distribute the culture or any information relating thereto or to its deposit except as instructed by the depositor or relevant patent office. After relevant patent issues and we are instructed to release the culture, the deposit will be made available for distribution to the public without any restrictions.

We will inform you of requests for the culture for 30 years from date of deposit.

The deposit was tested on October 13, 2008 and on that date, the culture was viable.
